

KITCHEN & KETTLE

Brand Style Guide

Colors, typography, and visual standards for a kitchen that works.

Works because it works.

COLOR

Primary Palette — "Still Hearth"

The palette is warm, grounded, and natural — never corporate, never precious. No pure white or pure black.

			
CLAY #C4A882 <i>Headers, accents, buttons</i>	INK #2C2416 <i>Body text, logos</i>	PAPER #F5F0E8 <i>Backgrounds</i>	SAGE #7D8B6F <i>Links, highlights, categories</i>

EXTENDED PALETTE

			
PRESERVATION RED #B94A3E <i>CTAs, important notes — use sparingly</i>	KITCHEN BLUE #6B7B8D <i>Tertiary accent, calm</i>	PANTRY CREAM #FAF7F0 <i>Card backgrounds, callout boxes</i>	CHARCOAL #3D362D <i>Secondary text</i>

PALETTE RULES

DO

Use Paper or Pantry Cream for all backgrounds. Limit to 3 colors per page. Use color to organize, not decorate.

DON'T

Never use #FFFFFF or #000000. Never use more than one accent color for a single element. No gradients, no neon.

TYPOGRAPHY

Type System

Two typefaces only: a warm serif for body and headings, a clean sans-serif for labels and UI.

PRIMARY SERIF — CRIMSON PRO

Kitchen & Kettle

Practical recipes, household systems, and traditional skills.

Works because it works. A quieter way to run a kitchen.

SECONDARY SANS — WORK SANS

SECTION HEADERS & LABELS

UI elements, navigation, captions, metadata. Clean and warm — never cold or geometric.

TYPE SCALE

H2	Crimson Pro	500	16pt	Section headings
H3	Work Sans	600	10pt	Uppercase, letter-spacing: 0.06em
Body	Crimson Pro	400	10.5pt	Line-height: 1.6
UI / Labels	Work Sans	500	9pt	Navigation, buttons, tags
Captions	Work Sans	400	8pt	Asides, metadata

TYPOGRAPHY RULES

DO

Crimson Pro for anything meant to be read. Work Sans for anything meant to be scanned. Generous line-height, generous whitespace.

DON'T

No third typeface. No decorative/display fonts. No all-caps body text. No condensed or extended variants.

BRAND MARKS

Wordmark & Kettle

The wordmark is the primary logo. The kettle is a supporting brand mark — never a replacement, always a companion.

KETTLE MARK

Primary

Charcoal on Paper

Default brand mark for light backgrounds

Reversed

Charcoal kettle inverted for dark backgrounds

Standalone (transparent) — for placement over photography or non-standard backgrounds

WORDMARK

Kitchen & Kettle

Crimson Pro 600. Always paired with the tagline or kettle mark — never solo on a blank page.

CLEAR SPACE & MINIMUM SIZE

Minimum clear space around the wordmark equals the height of the capital "K" in "Keeping." The kettle mark follows the same rule. Neither mark should appear smaller than 1 inch wide in print or 120px wide on screen.

USAGE RULES

DO

Use the Charcoal kettle as your default. Pair it with the wordmark on covers and headers. Let it sit small and calm — it's an heirloom, not a badge.

DON'T

No stretching, rotating, or recoloring outside the palette. No drop shadows or outlines. The kettle is never a replacement for the wordmark — it supports, it doesn't stand alone.

VOICE

Brand Voice

Talk like the most competent person you know, who is also the kindest.

DIMENSION	GUIDELINE
Tone	Warm, steady, calm. Not chipper. Not dry.
Authority	Earned, not claimed. "This works because I've done it."
Complexity	Clear enough for beginners, never condescending to experts.
Humor	Dry, occasional, never at anyone's expense.
Emotion	Honest but contained. Acknowledge hard things, then offer something useful.
Gender	Neutral by default. Skills belong to everyone.
