KITCHEN & *KETTLE*

Household Binder

A central place to manage your home —
no apps, no scattered notes, no
passwords on sticky notes.

HOME INFORMATION • CLEANING SYSTEM • MAINTENANCE

FINANCES • FOOD & KITCHEN • FAMILY ORGANIZATION

How to Use This Binder

This binder is divided into six tabbed sections, each covering a different part of running a household. You don't need to fill everything out at once — start with the section that's causing the most friction right now and build from there.

Home Information — Keep contacts, account numbers, and utility details in one place so you're not digging through email when the power goes out.

Cleaning System — Daily, weekly, monthly, and seasonal checklists. Check off as you go — the binder remembers what you've done.

Home Maintenance — Appliance logs, repair records, warranty dates, and paint colors. The stuff you swear you'll remember and never do.

Financial Organization — Bills, subscriptions, budget, and savings goals. No fancy finance software, just awareness.

Food & Kitchen — Pantry and freezer inventory, meal planning, and grocery lists so you stop buying what you already have.

Family Organization — Important dates, gift planning, holidays, and vacations. The calendar section that lives on paper.

Everything you type stays saved automatically to your browser. The toolbar at the top has five controls:

Saved — flashes when your data is saved. Happens automatically whenever you type or check a box.

Save a copy — downloads a backup file to your computer. Use this to protect your data from browser resets or to move it to a new device.

Import copy — restores your data from a backup file. Pick the .json file you saved earlier and everything comes back.

Clear all data — wipes everything and starts fresh. Good for a new year or a new house.

Print / Save PDF — prints the whole binder or saves it as a PDF. Use this for a clean paper copy for your shelf. Uncheck "Headers and footers" in the print dialog for the cleanest result.

Print it, fill it by hand, or type everything in — whatever works.
