Kitchen *& Kettle*

# Livestock Health Record

**KNOW WHAT'S NORMAL. RECORD WHAT CHANGED.**

A practical record system for the animals in your care — profiles, baseline notes, health events, treatments, preventative care, and vet visits.

A recordkeeping tool, not a diagnosis guide.

# How to use this record

The useful health record is the one you can find when you need it. Keep this with your farm paperwork, fill it out while the details are fresh, and bring the relevant pages to a vet visit.

## WHAT'S INSIDE

1. **Farm contacts** — Keep your veterinarian, emergency contacts, feed supplier, and transport information together.
2. **Animal overview** — Get the whole farm or flock on one page before you start individual records.
3. **Profiles and baselines** — Record what is normal for each animal. That gives you something useful to compare when behavior changes.
4. **Health events and treatments** — Write down what you saw, what you did, and what happened next.
5. **Preventative care, weight, and vet visits** — Keep recurring care and professional advice from disappearing into scraps of paper.

### KEEP THE RECORD FACTUAL

Write “eating less and standing apart from the group” rather than guessing at a diagnosis. Exact observations, dates, product names, doses, and instructions are more useful than confident-sounding labels.

## A NOTE ON SAFETY

This product does not tell you what disease an animal has or how to treat one. For urgent concerns, contact a veterinarian. Follow the product label and your veterinarian's instructions for medications, vaccines, withdrawal periods, and handling.

> *If an animal is struggling to breathe, cannot stand, is bleeding heavily, is severely bloated, or has another emergency sign, call a veterinarian rather than spending time filling out the form.*

# Farm contacts

> *Fill this page out before you need it. Add a second sheet if your farm uses more than one clinic or emergency service.*

### FARM OR HOMESTEAD NAME

### OWNER / PRIMARY CONTACT

### FARM ADDRESS

### DIRECTIONS FOR EMERGENCY SERVICES

### PEOPLE AND SERVICES

| CONTACT | NAME / BUSINESS | PHONE, EMAIL, OR NOTES |
|---|---|---|
| Regular veterinarian | | |
| After-hours veterinarian | | |
| Feed or hay supplier | | |
| Animal transport | | |
| Trusted farm helper | | |

### OTHER INSTRUCTIONS

# Animal overview

> *Use one row for an individual animal, a bonded pair, or a flock/group when individual records would not be practical.*

| ANIMAL / GROUP | SPECIES / BREED | ID, TAG, OR MARKINGS | SEX | BIRTH / ARRIVAL | LOCATION |
|---|---|---|---|---|---|
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |

## GROUP NOTES

# Animal profile

> *Print or duplicate this page for each animal you want to track individually. For a flock or group, use the first field for the group name and describe how individuals are identified.*

NAME / GROUP

SPECIES

BREED

SEX

BIRTH / HATCH DATE

ARRIVAL DATE

TAG / MICROCHIP / ID

COLOR AND MARKINGS

CURRENT LOCATION

SOURCE / PREVIOUS OWNER

PARENTAGE OR RELATED ANIMALS

PHOTO OR SKETCH NOTES

IMPORTANT HISTORY

# Baseline health

A baseline is your description of what normal looks like for this animal or group. It gives a future observation something to be compared against.

ANIMAL / GROUP

DATE RECORDED

- [ ] Appetite is typical
- [ ] Movement and gait are typical
- [ ] Body condition is typical
- [ ] Behavior and alertness are typical
- [ ] Breathing is typical
- [ ] Droppings, manure, or production are typical

## USUAL APPETITE AND WATER

## USUAL BEHAVIOR

## USUAL APPEARANCE

## WHAT WOULD BE UNUSUAL

# Health event record

> *Use one page per concern. Record what you observed before you decide what it means.*

**ANIMAL / GROUP**

**DATE FIRST NOTICED**

**DATE RESOLVED / FOLLOW-UP**

**WHAT CHANGED?**

**MEASUREMENTS**

**WHO WAS CONTACTED?**

**INSTRUCTIONS RECEIVED**

| WHAT WAS DONE | WHAT HAPPENED NEXT |
| --- | --- |
| | |

# Treatment log

> *Record the exact product name and follow the label or veterinarian's instructions. Include withdrawal information when it applies.*

| DATE | ANIMAL | PRODUCT / TREATMENT | REASON | DOSE / ROUTE | NEXT DOSE / END | WITHDRAWAL ENDS |
|---|---|---|---|---|---|---|
| | | | | | | |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| | | | | | | |

## PRODUCT STORAGE OR REORDER NOTES

# Preventative care

> *Use this for vaccinations, routine checks, hoof or nail care, dental care, parasite management, and other recurring care recommended for your animals.*

| DATE | ANIMAL / GROUP | CARE OR PRODUCT | PRODUCT / LOT NUMBER | NEXT DUE | GIVEN BY / NOTES |
|---|---|---|---|---|---|
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |

## QUESTIONS FOR THE NEXT VET VISIT

# Weight and condition

> *Trends are often more useful than one number. Write down why you checked, especially if the measurement changed.*

| DATE | ANIMAL | WEIGHT | BODY CONDITION / APPEARANCE | REASON FOR CHECK | NOTES |
|---|---|---|---|---|---|
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |

**WHAT I AM WATCHING**

**QUESTIONS FOR THE VET**

# Vet visit record

> *Use one page per visit. Keep invoices, lab results, and medication instructions with this page.*

**DATE**

**ANIMAL / GROUP**

**CLINIC / VETERINARIAN**

**REASON FOR VISIT**

**FINDINGS**

**INSTRUCTIONS AND PRESCRIPTIONS**

**FOLLOW-UP**

**DOCUMENTS STORED WITH THIS RECORD**

# Emergency notes

Write down the information a helper would need if you were unavailable. Keep this page easy to find.

**KEEP THIS PAGE CURRENT**

Phone numbers change. So do gate codes, animal locations, and feeding instructions. Review this page at the beginning of each season.

## WHO HAS PERMISSION TO MAKE DECISIONS?

## WHERE ARE THE ANIMALS KEPT?

## IMMEDIATE FEEDING OR MEDICATION INSTRUCTIONS

## OTHER EMERGENCY NOTES

## QUESTIONS TO CARRY FORWARD

### THINGS TO ASK

### THINGS TO UPDATE

# Keep the record close.

You do not need to know everything at once.
You need a place to write down what you saw,
what you did, and what happened next.

*Works because it works.*

Kitchen & Kettle

A quieter way to run a kitchen.
